COMBINED SOFTWARE DEVELOPMENT AGREEMENT AND STATEMENT OF WORK

Phase 1A MVP Development for Think Funding LLC

Effective Date	April 13, 2026
Client	Think Funding LLC, represented by **Aia Labja** Email: aia.labja@thinkfundinggroup.com Location: Rhode Island, USA
Developer	Vincent John Rodriguez Email: vjrodriguez1994@gmail.com Location: Philippines
Website	https://thinkfundinggroup.com

This Combined Software Development Agreement and Statement of Work (this "Agreement") is entered into as of the Effective Date stated above by and between Think Funding LLC ("Client" or "Think Funding") and Vincent John Rodriguez ("Developer"). Client and Developer may be referred to individually as a "Party" and collectively as the "Parties." This Agreement sets forth the terms under which Developer will design, build, document, and deliver the Phase 1A minimum viable product ("Phase 1A MVP") described in Exhibit A.

1. Engagement and Scope

1.1 Client engages Developer, and Developer accepts such engagement, to perform the Services and deliver the Deliverables for the Phase 1A MVP in accordance with this Agreement and Exhibit A.

1.2 The Services are limited to the in-scope items expressly identified in Exhibit A. Any work outside Exhibit A, including any item identified as future-phase, advanced, optional, or not expressly included, is out of scope unless added through a written Change Order signed by both Parties under Section 6.

1.3 This Agreement is intended to cover only Phase 1A MVP work. High-level descriptions of later phases are included solely to clarify exclusions and prevent scope creep.

2. Term

2.1 This Agreement begins on the Effective Date and continues until final acceptance of the Deliverables or earlier termination in accordance with Section 17.

2.2 The milestone target dates are set forth in Exhibit B and may be completed after such dates if revised in writing by the Parties.

3. Definitions

3.1 "Services" means the development, configuration, implementation, documentation, handoff, and related work to be performed by Developer under this Agreement.

3.2 "Deliverables" means all work product, code, configurations, workflows, scripts, databases, documentation, diagrams, specifications, materials, and other items created, configured, or delivered by Developer for Client under this Agreement, in both source and compiled/object forms, whether complete or incomplete.

3.3 "Technical Documentation" means the detailed technical documentation required under Section 10 and Exhibit A, including architecture notes, deployment notes, workflow explanations,

environment/configuration notes, database/schema notes, troubleshooting notes, and operational guidance sufficient for future maintenance and troubleshooting.

3.4 "Acceptance" means Client's written confirmation that the applicable milestone deliverable or final Deliverables satisfy the applicable acceptance criteria in Exhibit A and Exhibit B.

3.5 "Change Order" means a written amendment signed by both Parties that modifies scope, fees, timing, or Deliverables.

3.6 "Contract Price" means the total fixed fee of **Three Thousand United States Dollars (US$3,000.00)**. For payment purposes, the Contract Price shall be converted into Philippine Pesos ("PHP") using the Conversion Rate set forth in Section 5.2, and all payments due under this Agreement shall be made in PHP based on that Conversion Rate. The resulting total Contract Price in PHP shall remain fixed for all Milestone Payments under this Agreement.

4. Order of Precedence

4.1 In the event of a conflict, the following order of precedence applies:

(a) the main body of this Agreement;
(b) Exhibit A (Statement of Work / Phase 1A Scope);
(c) Exhibit B (Milestones and Payment Schedule); and
(d) Exhibit C (Out-of-Scope and Future Phases).

4.2 No email, message, verbal request, or informal instruction modifies this Agreement unless expressly incorporated into a signed Change Order.

5. Fees and Payment

5.1 The total fixed fee for all Services and Deliverables under this Agreement is Three Thousand U.S. Dollars (US$3,000.00) (the "Contract Price"), payable in Philippine Pesos ("PHP") based on the **Conversion Rate** (as defined in Section 5.2).

5.2 **Conversion Rate**. For payment purposes, the Contract Price shall be converted into Philippine Pesos ("PHP") using the following USD-to-PHP exchange rate: **1 USD = 60.19 PHP** (the "Conversion Rate"), according to **Wise.com** on **April 13, 2026** at **11:00 AM EST** (the "Conversion Rate Date"). Based on the Conversion Rate, the total Contract Price in PHP is: **PHP 180,570.00** (the "PHP Contract Price"). The PHP Contract Price shall remain fixed for all Milestone Payments under this Agreement.

5.3 The PHP Contract Price shall be paid only upon completion and Acceptance of the applicable milestone described in Exhibit B, in the following proportions (each, a "Milestone Payment"), in each case payable in PHP based on the Conversion Rate:

(a) Milestone 1: twenty percent (20%) / PHP 36,114.00;
(b) Milestone 2: thirty percent (30%) / PHP 54,171.00; and
(c) Milestone 3: fifty percent (50%) / PHP 90,285.00.

5.4 Developer shall issue an invoice only after completion of the applicable milestone and Client's Acceptance of that milestone. Client shall pay each approved invoice within five (5) business days after receipt unless the Parties insert a different period in Exhibit B.

5.5 Except as expressly stated in a signed Change Order, the Contract Price includes all labor, ordinary tools, and ordinary development effort required to complete the in-scope Services. Third-party service fees, cloud charges, domain fees, SaaS subscriptions, licenses, SMS/email usage fees, or other pass-through costs are excluded unless expressly stated otherwise in Exhibit A.

5.6 Developer shall not be entitled to additional fees for work caused by Developer's errors, rework required to meet the agreed scope, or work necessary to achieve Acceptance for in-scope Deliverables.

5.7 Payment Method. All payments under this Agreement shall be made via Wise to an account designated in writing by Developer. Client (Think Funding) shall be responsible for any Wise processing or transfer fees,

and Client shall pay such fees in addition to the applicable Milestone Payment so that Developer receives the full net Milestone Payment amount in PHP.

6. Change Control

6.1 Any proposed change to the Services, Deliverables, timeline, architecture, functionality, integrations, documentation requirements, or fees must be documented in a Change Order.

6.2 A Change Order must describe, at minimum, the requested change, any impact on fees, any impact on delivery dates, and any revised acceptance criteria.

6.3 Developer is not obligated to perform changed or additional work until the applicable Change Order is signed by both Parties.

7. Milestones and Delivery

7.1 The milestone framework, milestone descriptions, milestone target dates, and related payment amounts are set forth in Exhibit B. Blank lines are intentionally included so the Parties may complete the milestone details and target dates before execution.

7.2 Developer shall use commercially reasonable efforts to achieve each milestone by the applicable target date entered in Exhibit B.

7.3 Delivery shall be deemed made only when Developer provides Client with the applicable milestone Deliverables, related Technical Documentation for that milestone, and any credentials, files, or access materials reasonably necessary for Client to review the delivered work.

7.4 Project Touchpoints. Until final acceptance of the Deliverables, the Parties shall conduct three (3) touchpoints per week of approximately fifteen (15) minutes each (by video call or phone) for status updates, scope clarifications, and obstacle removal, at times reasonably agreed by the Parties.

8. Acceptance

8.1 Within five (5) business days after delivery of a milestone or final Deliverable, Client shall either:

(a) provide written Acceptance; or
(b) provide a written list of material non-conformities against the applicable scope or acceptance criteria.

8.2 If Client identifies material non-conformities, Developer shall correct such non-conformities within a reasonable period and resubmit the applicable Deliverable for further review. This cycle shall repeat until the in-scope Deliverable conforms to the Agreement.

8.3 Acceptance shall not be deemed to waive latent defects, security defects, documentation deficiencies, ownership issues, or Developer's warranty obligations under Section 14.

9. Client Responsibilities

9.1 Client shall provide reasonably timely access to designated decision-makers, business inputs, branding materials in Client's possession, and accounts or credentials that Client elects to provide for implementation.

9.2 Client shall designate Aia Labja, or another written designee, as the primary point of contact for scope, acceptance, and project direction.

9.4 Client shall provide Developer with access to Client-controlled systems, environments, and accounts reasonably necessary for Developer to perform the Services. Developer shall perform all development and configuration work within Client's environment(s) to the extent practicable, and shall not deploy Client workloads into Developer-controlled subscriptions, tenants, or environments except with Client's prior written consent.

9.3 Client is responsible for legal review of any production legal forms, regulatory disclosures, or compliance language used in the product unless Exhibit A expressly states otherwise.

10. Documentation and SharePoint Delivery Requirements

10.1 Developer shall prepare and maintain detailed Technical Documentation for the Phase 1A MVP.

10.1A System of Record. For avoidance of doubt, Azure SQL Database shall serve as the authoritative system of record for all structured business, operational, financial, and compliance data for the Phase 1A MVP, and no workflow, task, or document management tool (including Microsoft Lists, SharePoint, or n8n) shall be treated as a system of record.

10.2 The Technical Documentation shall be organized and saved in Client's designated SharePoint location and shall be delivered in a form reasonably suitable for future troubleshooting, maintenance, handoff, and operational understanding.

10.3 At a minimum, the Technical Documentation shall include:

(a) solution overview;
(b) system architecture summary;
(c) codebase/module overview;
(d) database/schema notes;
(e) workflow and automation explanations;
(f) environment/configuration notes, excluding secrets;
(g) deployment steps;
(h) dependency list;
(i) troubleshooting/runbook notes; and
(j) known limitations or deferred items.

10.4 Technical Documentation is a material Deliverable. Client may reject a milestone if the corresponding Technical Documentation is incomplete, materially unclear, or not delivered to the designated SharePoint location.

11. Ownership; Work Made for Hire; Assignment

11.1 As between the Parties, all Deliverables shall be specially ordered by Client and, to the fullest extent permitted by law, shall constitute works made for hire for the benefit of Think Funding.

11.2 To the extent any Deliverable does not qualify as a work made for hire, Developer hereby irrevocably assigns, transfers, and conveys to Think Funding, without further consideration, all right, title, and interest in and to such Deliverable, including all intellectual property rights, copyrights, patent rights, trade secret rights, and all derivative works therein, worldwide, in perpetuity.

11.3 The ownership transfer in this Section includes all code, whether source code, object code, compiled code, uncompiled code, scripts, templates, automations, workflows, database objects, UI assets, documentation, drafts, intermediate work product, and all other work created or configured under this Agreement.

11.4 Developer shall promptly execute further documents and provide further assistance reasonably requested by Client to evidence, perfect, or enforce Client's ownership rights under this Section.

11.5 Except for pre-existing Developer materials expressly identified in writing before use, Developer shall not retain any ownership interest in the Deliverables. Any approved pre-existing Developer materials incorporated into the Deliverables shall be licensed to Client on a perpetual, irrevocable, worldwide, transferable, sublicensable, fully paid-up basis to the extent necessary for Client to use, modify, support, and exploit the Deliverables.

12. Open Source and Third-Party Materials

12.1 Developer shall not include any open-source, third-party, or other external code, libraries, templates, connectors, or components in a manner that materially restricts Client's ownership or use of the Deliverables without Client's prior written consent.

12.2 Developer shall identify in the Technical Documentation all approved third-party components used in the Deliverables and all material license obligations associated with them.

12.3 Developer shall not include any code or component subject to a copyleft or similar license that would require disclosure, licensing, or open-sourcing of Client-owned code unless Client expressly approves such use in writing.

13. Confidentiality and Data Security

13.1 "Confidential Information" means all non-public information disclosed by or on behalf of Client, including business plans, product plans, data models, workflows, specifications, documents, credentials, customer information, financial information, and all Deliverables.

13.2 Developer shall:

(a) use Confidential Information solely to perform the Services;
(b) protect Confidential Information using at least reasonable care;
(c) not disclose Confidential Information except to approved persons with a need to know; and
(d) promptly notify Client of any actual or suspected unauthorized access, disclosure, loss, or security issue affecting Client information or the Deliverables.

13.3 Developer shall not store, reuse, publish, sell, disclose, or repurpose Client data, Client materials, or Deliverables for any other client or purpose.

13.4 Upon termination or Client's written request, Developer shall promptly return or securely destroy Client Confidential Information in Developer's possession, except to the extent retention is required by applicable law.

14. Representations, Warranties, and Covenants

14.1 Each Party represents that it has the authority to enter into and perform this Agreement.

14.2 Developer represents, warrants, and covenants that:

(a) the Services will be performed in a professional and workmanlike manner;
(b) the Deliverables will materially conform to the requirements of this Agreement and Exhibit A;
(c) Developer has full right to grant the rights granted herein;
(d) the Deliverables will not knowingly infringe, misappropriate, or violate any third-party intellectual property right;
(e) Developer will not knowingly include malicious code, hidden access methods, or undisclosed disabling devices in the Deliverables; and
(f) Developer will comply with applicable laws in performing the Services.

14.3 Post-Acceptance Support. Developer shall, at no additional charge, provide support for ninety (90) days after final Acceptance to address defects, errors, or non-conformities reported by Client that relate to the in-scope Deliverables as delivered. Such support includes reasonable bug fixes and corrections, but excludes new features, enhancements, scope expansions, or changes arising from Client-directed modifications not made by Developer, third-party outages, or changes to third-party services. This support obligation is in addition to, and not in limitation of, Client's other rights under this Agreement.

15. Subcontracting; Personnel

15.1 Developer shall not subcontract, delegate, or assign performance of the Services, in whole or in part, without Client's prior written consent.

15.2 Developer shall remain fully responsible for all approved subcontractors and for all acts and omissions of such persons.

15.3 The Services are being engaged in reliance on Developer's personal skill and involvement.

15.4 Non-Solicitation. During the term of this Agreement and for twelve (12) months thereafter, Developer shall not solicit for employment any employee or contractor of Client who is materially involved in the Phase 1A MVP, without Client's prior written consent.

16. Independent Contractor

16.1 Developer is an independent contractor and not an employee, partner, joint venturer, or agent of Client.

16.2 Developer is solely responsible for all taxes, filings, permits, registrations, employment obligations, and other obligations arising from Developer's compensation or performance under this Agreement.

17. Termination

17.1 Either Party may terminate this Agreement for material breach by the other Party if such breach is not cured within ten (10) business days after written notice describing the breach in reasonable detail.

17.2 Client may terminate this Agreement for convenience upon written notice. In such event, Client shall pay Developer only for properly completed and Accepted milestones completed before the effective date of termination. No partial milestone payment shall be due unless Client agrees otherwise in writing.

17.3 Upon termination, Developer shall promptly deliver to Client all then-existing Deliverables, work in progress, Technical Documentation, credentials in Developer's control that belong to Client, and any other Client materials or information reasonably necessary for transition. Developer shall immediately cease use of and access to Client systems except to the extent Client expressly authorizes limited continued access in writing for transition support or the post-acceptance support period under Section 14.3. Client may disable or terminate Developer's access at any time in its discretion, and in any event shall disable Developer's access no later than three (3) months after final Acceptance or termination of this Agreement (whichever occurs first); provided that Client may later re-enable access for a future phase or new engagement by written authorization.

Upon Client's request (including upon termination or at the end of the period described above), Developer shall certify in writing that Developer has not retained any Client data, credentials, or environment artifacts outside Client-controlled environments, except to the extent retention is required by applicable law.

17.4 Survival. Sections 5 (Fees and Payment), 10 (Documentation and SharePoint Delivery Requirements), 11 (Ownership; Work Made for Hire; Assignment), 12 (Open Source and Third-Party Materials), 13 (Confidentiality and Data Security), 17 (Termination), 18 (Indemnification), 19 (Limitation of Liability), 20 (Governing Law; Dispute Resolution), 21 (Notices), 22 (General Provisions), and any other provision that by its nature should survive, shall survive termination or expiration of this Agreement.

18. Indemnification

18.1 Developer shall defend, indemnify, and hold harmless Think Funding and its officers, managers, members, and representatives from and against third-party claims, damages, liabilities, costs, and reasonable attorneys' fees arising out of:

(a) Developer's breach of this Agreement;
(b) Developer's gross negligence, fraud, or willful misconduct; or
(c) a claim that any Deliverable infringes or misappropriates a third-party intellectual property right, except to the extent caused by Client-directed modifications not made by Developer or materials furnished solely by Client.

18.2 Client shall promptly notify Developer of any indemnified claim and reasonably cooperate in the defense thereof at Developer's expense.

19. Limitation of Liability

19.1 Except for breaches of confidentiality, ownership/assignment obligations, indemnification obligations, fraud, willful misconduct, gross negligence, or unpaid fees, neither Party shall be liable to the other for any indirect, incidental, special, consequential, exemplary, or punitive damages arising out of this Agreement.

19.2 Except for the excluded categories in Section 19.1, each Party's aggregate liability under this Agreement shall not exceed the Contract Price actually paid or payable under this Agreement.

20. Governing Law; Dispute Resolution

20.1 This Agreement shall be governed by and construed in accordance with the laws of the State of Rhode Island, without regard to conflict-of-laws rules.

20.2 The Parties shall first attempt in good faith to resolve any dispute through informal business discussions. If the dispute is not resolved, either Party may pursue relief in the state or federal courts located in Rhode Island, and each Party consents to the exclusive jurisdiction and venue of such courts.

20.3 Notwithstanding the foregoing, Client may seek temporary, preliminary, or permanent injunctive relief in any court of competent jurisdiction to protect Confidential Information, intellectual property, or ownership rights.

21. Notices

21.1 All notices under this Agreement shall be in writing and delivered by email or other written method that provides a record of delivery to the contact information stated above, or to any updated contact information later designated in writing.

21.2 Notices to Think Funding shall be directed to Aia Labja at **aia.labja@thinkfundinggroup.com** unless Client designates another notice address in writing.

21.3 Notices to Developer shall be directed to **vjrodriguez1994@gmail.com** unless Developer designates another notice address in writing.

22. General Provisions

22.1 Entire Agreement. This Agreement, together with its Exhibits, constitutes the entire agreement between the Parties with respect to its subject matter and supersedes all prior or contemporaneous discussions, proposals, or understandings relating to that subject matter.

22.1A No Legal/Compliance Advice. Developer does not provide legal, regulatory, compliance, underwriting, or risk-management advice, and Client retains sole responsibility for legal, regulatory, and compliance determinations related to Client's business operations and use of the Deliverables.

22.2 Amendment. This Agreement may be amended only by a written instrument signed by both Parties.

22.3 Waiver. No waiver is effective unless in writing, and no waiver shall operate as a continuing waiver.

22.4 Severability. If any provision is held unenforceable, the remaining provisions shall remain in full force and effect, and the unenforceable provision shall be enforced to the maximum extent permitted by law.

22.5 Assignment. Developer may not assign this Agreement without Client's prior written consent. Client may assign this Agreement to an affiliate or successor in connection with a merger, reorganization, sale, or transfer of substantially all of its business or assets.

22.6 Counterparts; Electronic Signatures. This Agreement may be executed in counterparts and by electronic signature, each of which shall be deemed an original and all of which together shall constitute one instrument.

22.7 Interpretation. Headings are for convenience only and do not affect interpretation. The words "include," "includes," and "including" mean "including without limitation."

IN WITNESS WHEREOF, the Parties have executed this Agreement as of the Effective Date.

THINK FUNDING LLC	DEVELOPER

EXHIBIT A

STATEMENT OF WORK – PHASE 1A MVP

A.1 Project Objective

Developer shall deliver a lean, launch-oriented Phase 1A MVP for Think Funding LLC. The objective is to provide a functional foundation that supports early merchant intake and internal operations without expanding into later-phase features.

A.2 In-Scope Deliverables (Phase 1A Only)

The in-scope Deliverables for Phase 1A MVP are limited to the following high-level items:

(a) a professional public-facing website presence for Think Funding at or for use with www.thinkfundinggroup.com, including a dark mode option with the default appearance set to light mode;
(b) a secure merchant application intake flow sufficient for initial MVP use;
(c) secure document upload capability for merchant-submitted materials;
(d) a basic internal operations/admin interface sufficient to review submissions and core records at an MVP level;
(e) core Azure-hosted application setup for the MVP environment;
(f) core database setup using Azure SQL for foundational MVP entities and records;
(g) document storage setup using Azure Blob Storage or equivalent Azure storage selected for the MVP architecture;
(h) Microsoft Entra-based authentication or access controls as applicable to the MVP scope;
(i) baseline n8n workflow/orchestration setup for submission intake, file organization, and basic notifications/alerts;
(j) basic Microsoft 365 notification integration (such as Outlook and/or Teams notifications) where required by the MVP scope;
(k) structured handoff of code, configurations, workflows, and Technical Documentation; and
(l) deployment and handoff sufficient for Client to possess and understand the delivered MVP foundation.

A.3 Technical Documentation Deliverables

Developer shall prepare and save to Client's designated SharePoint location detailed Technical Documentation for all in-scope MVP work. Such documentation shall include, at minimum, the following, to the extent applicable to the delivered solution:

(a) solution overview and architecture summary;
(b) repository/codebase structure summary;
(c) environment/configuration documentation, excluding secret values;
(d) Azure services used and their role in the MVP;
(e) Azure SQL schema/object overview for the MVP;
(f) n8n workflow descriptions, trigger logic, and operational purpose;
(g) deployment notes and update steps;
(h) dependency list and third-party component summary;
(i) troubleshooting/runbook notes; and
(j) known limitations, deferred items, and assumptions.

A.4 Deliverable Standards

All Deliverables shall be delivered in a reasonably organized, readable, and maintainable manner consistent with MVP-stage software development. Developer shall provide Client with all source code, compiled code,

configuration files, workflow exports, schema scripts or equivalent database setup materials, and documentation generated for the project.

Developer shall not withhold any material element necessary for Client or its future contractors to understand, access, troubleshoot, maintain, or continue development of the Phase 1A MVP.

A.5 Out of Scope for Phase 1A

The following items are expressly out of scope for Phase 1A unless added by signed Change Order:

(a) advanced AI, OCR, bank statement extraction, automated risk scoring, underwriting intelligence, or automated fraud analysis;
(b) broker/ISO portal functionality;
(c) full underwriting workbench, servicing module, collections module, payment processing engine, ACH handling, reconciliation, renewal workflows, or portfolio analytics;
(d) advanced dashboards, BI reporting, KPI packs, or Power BI production reporting;
(e) full lifecycle automation beyond baseline MVP notifications and basic workflow routing;
(f) accounting integrations, advanced compliance engines, OFAC automation, or production-grade legal/compliance content authoring;
(g) custom mobile applications;
(h) penetration testing, formal security certification, or enterprise-grade disaster recovery beyond normal MVP setup; and
(i) any feature, module, workflow, integration, or page not expressly stated as in scope in this Exhibit A.

A.6 Future-Phase Reference Only

The Parties acknowledge that later phases may include higher-level functionality such as: Phase 1B practical upgrades and automation; Phase 2 automation, rules, and reporting expansion; and Phase 3 full lifecycle functionality including broker portal, servicing, collections, ACH exception handling, renewals, reconciliation, analytics, and broader operational tooling. These later-phase items are not included in the Contract Price and are referenced only to clarify exclusions.

A.7 Acceptance Criteria

Unless the Parties specify more detailed criteria in Exhibit B, the general acceptance criteria for Phase 1A MVP Deliverables are:

(a) the delivered items materially conform to the in-scope requirements of this Exhibit A;
(b) the core workflows intended for MVP use are materially functional;
(c) the required handoff materials have been delivered; and
(d) the corresponding Technical Documentation has been uploaded to the designated SharePoint location.

EXHIBIT B

MILESTONES AND PAYMENT SCHEDULE

The milestone details and milestone target dates below intentionally include blank lines so the Parties may complete them before signature. Payment is due only after completion and Acceptance of the applicable milestone.

No.	Milestone Description	Target Completion Date	Payment %	Payment Amount
1	Foundation & Environment Setup	May 2, 2026	20%	PHP 36,114.00
2	Core Platform Build & Workflow Integration	May 17, 2026	30%	PHP 54,171.00
3	Testing, Launch Readiness & Phase 1A Completion	June 1, 2026	50%	PHP 90,285.00

Conversion Rate and PHP amounts: 1 USD = 60.19 PHP (Wise.com on April 13, 2026 at 11:00 AM EST). Total Contract Price in PHP: PHP 180,570.00. Milestone 1 (20%): PHP 36,114.00. Milestone 2 (30%): PHP 54,171.00. Milestone 3 (50%): PHP 90,285.00. The Conversion Rate is fixed for all Milestone Payments.

Milestone acceptance date for Milestone 1: _____

Milestone acceptance date for Milestone 2: _____

Milestone acceptance date for Milestone 3: _____

Any milestone-specific acceptance criteria, assumptions, or notes:

_____

_____

_____

_____

EXHIBIT C

OUT-OF-SCOPE ITEMS AND FUTURE PHASES (REFERENCE ONLY)

This Exhibit is included solely to reduce ambiguity and prevent scope creep. The following items are not included in the Contract Price for this Agreement and are not required for Phase 1A MVP delivery unless later added through a signed Change Order or separate agreement:

Phase	High-Level Reference Only
Phase 1B	Practical upgrade layer, including more automation, bank statement extraction support, underwriting report generation, missing-document chase automation, and stronger compliance checklisting.
Phase 2	Automation and intelligence expansion, including deeper rules, fraud/risk models, reporting improvements, and enhanced internal workbench functionality.
Phase 3	Full lifecycle scale, including broker/ISO portal, servicing, collections, ACH exception handling, reconciliation, renewals, analytics, accounting support, and broader operational tooling.

No feature, module, integration, automation, report, workflow, support obligation, or enhancement associated with any future phase shall be implied to be included in Phase 1A solely because it is mentioned in this Agreement.
